

# Samir Thaker

## Visionary Leader in Digital Transformation & Industrial Automation

Where engineering precision meets strategic vision—transforming complex challenges into innovative solutions that drive business growth.

# Impact at a Glance

24+

Years Experience

Leading industrial  
automation and digital  
transformation initiatives

20+

Countries Served

Global project delivery  
across AP, MEA, EU, and  
NALA regions

\$MM+

Business Unlocked

Value delivered through  
strategic technology  
solutions

8+

Industries Served

Oil & Gas, Life Science,  
Manufacturing, Power &  
Utilities

# Who I Am

A technical people leader passionate about building high-performing teams that deliver exceptional value. With over two decades in industrial automation, software development, and global operations, I combine deep technical expertise with strategic business acumen and proven Agile transformation leadership.

## Vision

Empowering organizations through smart automation, innovative digital solutions, and collaborative transformation for lasting impact.

## Mission

Delivering results through technology integration, agile leadership, and people-centric project execution from concept to deployment.

# What Drives Me

## Customer Delight

Long-term satisfaction through exceptional delivery and relationship building

## Organizational Competencies

Building capabilities that create lasting competitive advantage

## Digital Transformation

Process optimization through innovative technology integration

## High-Performance Cultures

Creating inclusive environments where teams thrive

## Technical Innovation

Delivering measurable business value through technology

# My Unique Selling Point

## 1 Engineering + Business

Rare combination of technical depth and strategic business vision

## 2 Level 1-4 Automation

Complete automation stack expertise from field devices to enterprise systems

## 3 Proven Agile Leadership

SAFe transformation and iterative delivery management

## 4 Global Team Management

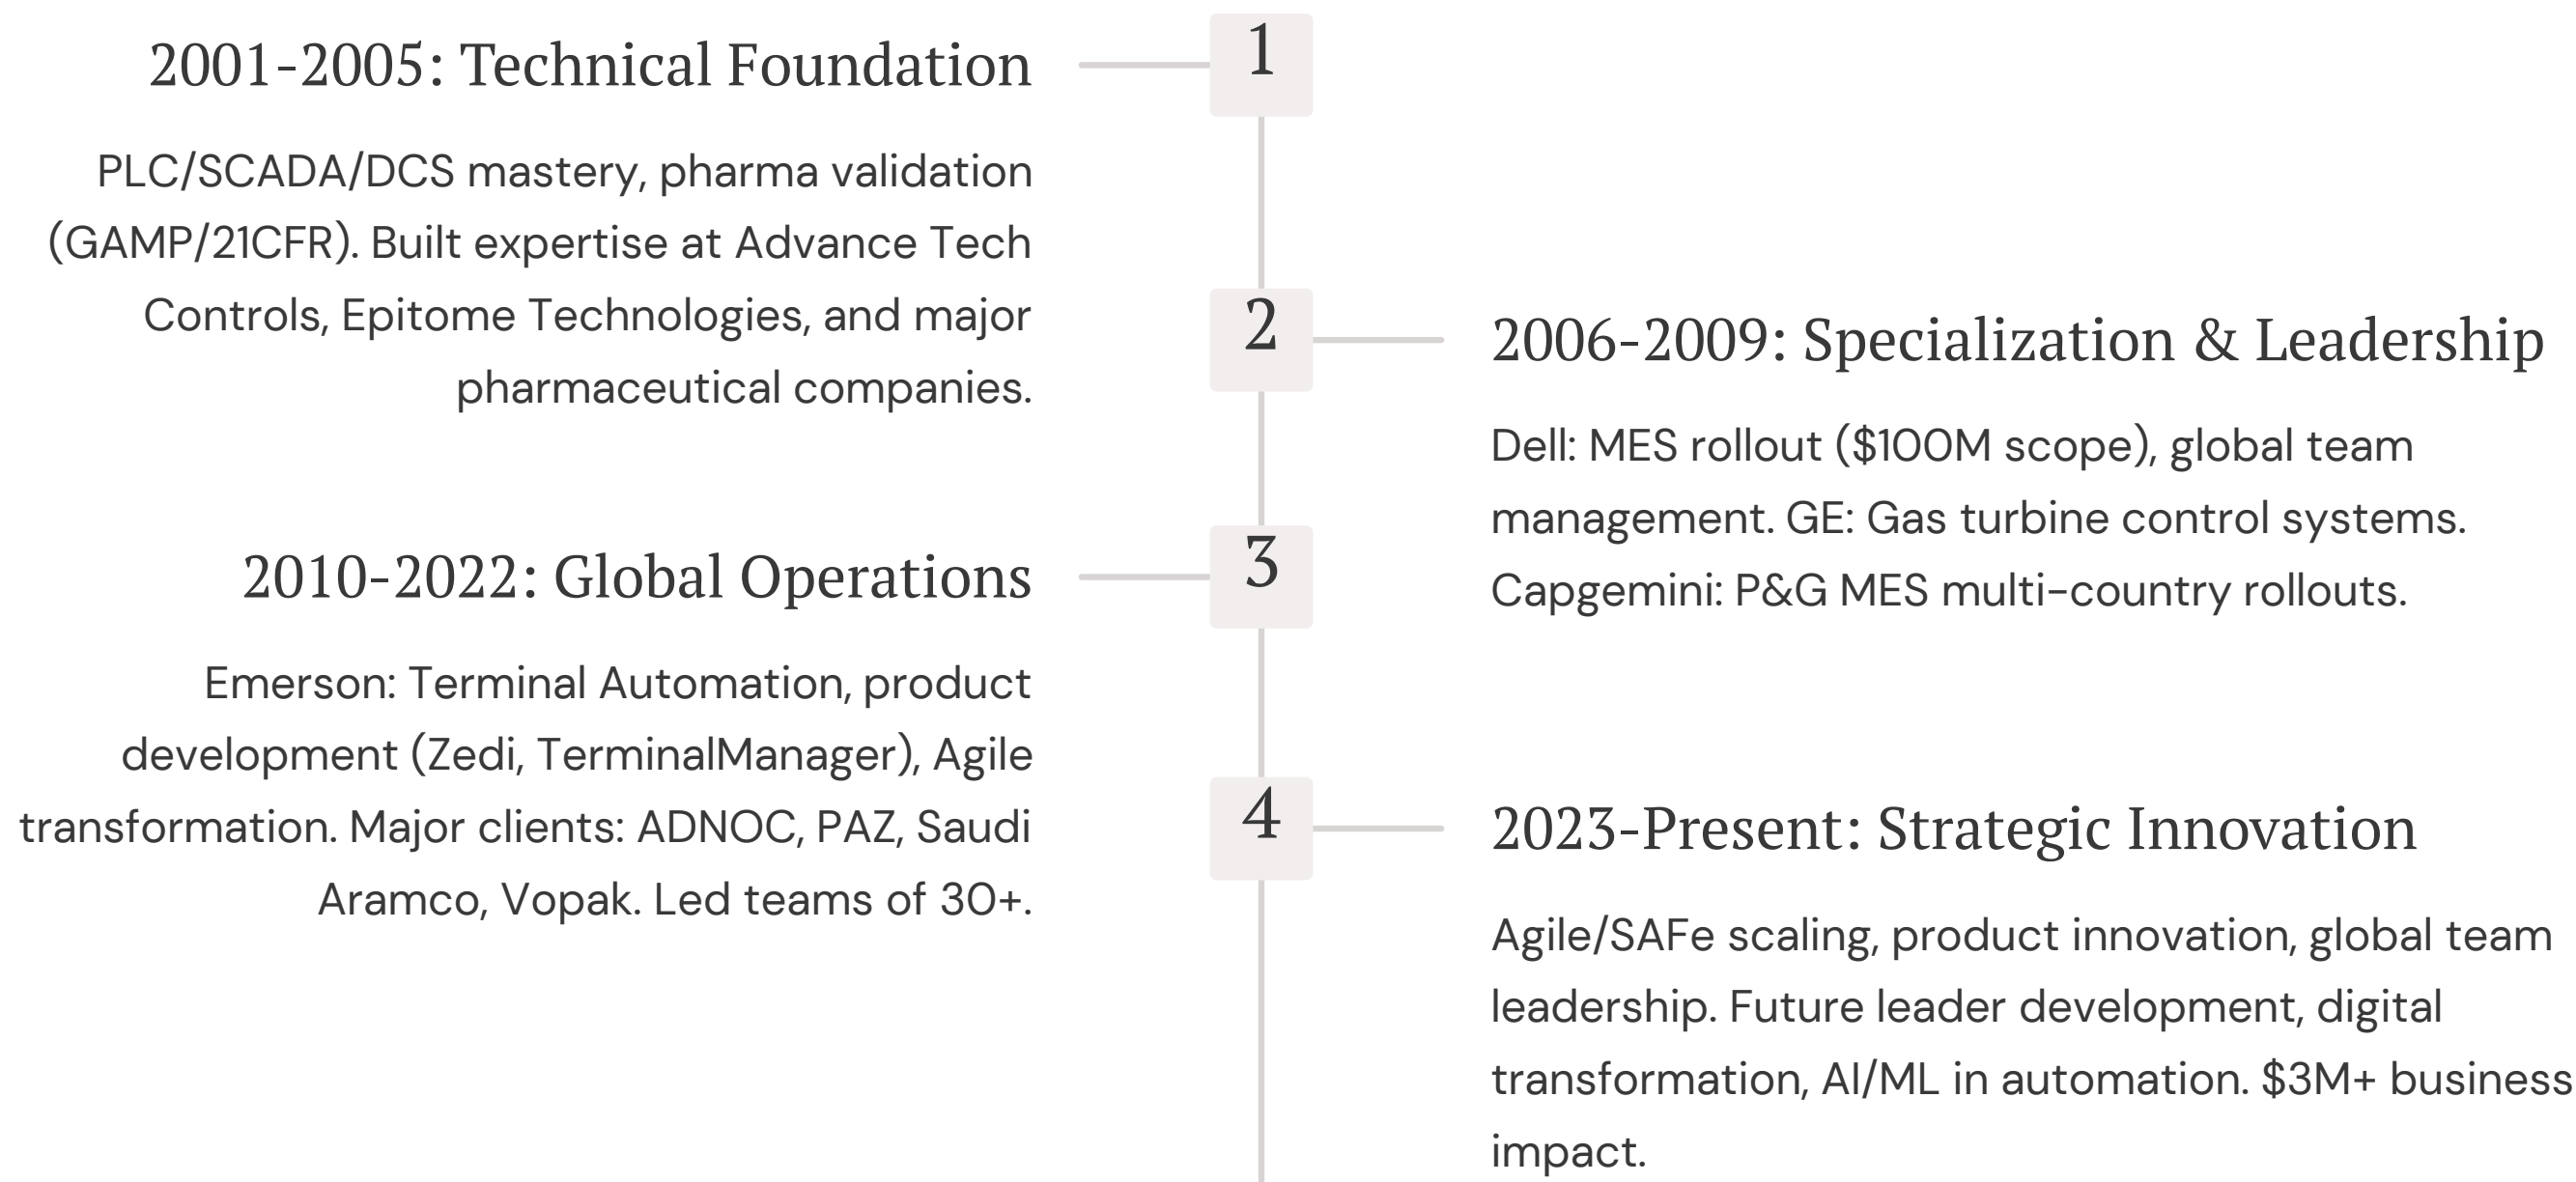

Leading distributed teams across cultures and time zones

## 5 Customer Success Track Record

9/10 satisfaction scores across major global projects

# Career Journey: Four Phases of Growth

# Hands-On Expertise

## Industrial Automation

- L1 to L4 systems & solution design
- End-to-end project lifecycle execution
- PLC programming, DCS (DeltaV, Foxboro)
- SCADA, field instruments, commissioning

## Software Development

- New product development
- Agile & SAFe coaching
- Web & Windows apps, API development
- O365 Power Automate, No Code/Low Code

## Digital Transformation

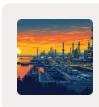

- Edge solutions: Sensor to cloud
- Real-time analytics
- IT-OT integration
- Data Analytics: Microsoft Fabric (Power BI)

## Competency Building

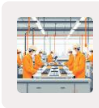

- Mentorship & skills development
- Operational excellence coaching
- Strategy formation
- Cross-functional leadership

# Major Project Highlights

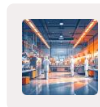

## ADNOC - UAE

Multi-year strategic partnership. Marine loading applications, Syncade Truck & Rail systems. Led team of 10+ members with long-term strategic wins.

## Dell Manufacturing - Global

\$100M+ program value. Global factory automation & MES rollouts across Poland, China, India. Outstanding Contribution Award.

## Indoco Remedies - India

\$1.5M USD Building Management System. 21CFR Part 11 compliant. Received Customer Recognition Award for excellence.

## Saudi Aramco - KSA

1600+ man-hours Terminal Automation Solution. Led as PM + Lead Consultant. Successful delivery led to repeat business.

# What People Say
